5th Int'l South France Conference / 9 - 14 October 2025

After the extraordinary success of our last gathering in the South of France – 5 days of inspiration, connection, and excellent local cuisine – we are excited to announce the next edition this October!

Last year's conference sold out in just two months, so if you wish to attend, we recommend securing your spot during the early bird until June 1.

Phiray Rejuvenation Technology – Available Now

We're thrilled to introduce the latest rejuvenation tech by Dan Winter – the Phiray system.

With its movable Phase Conjugate Magnetic / Schumann Coil, synchronized with plasma, this tech creates a “blissful healing magnetic wind” – a cocoon of implosive grounding and energetic balance.

Current lead time: 1 month

What's Next at Geometric Models?

Synergetics with Casey House

We're excited to team up with Casey House, visionary artist, teacher, and founder of Syn-U.com, to bring the principles of Synergetics to a wider audience.

A Synergetics Poster, specially designed for Geometric Models followers, is on its way – enabling a clear visual understanding of Buckminster Fuller's geometric principals.

Mark your calendar for Casey's live FractalU.com presentation on May 25.

We've got more exciting projects in the works with Dan Winter - details coming soon, so keep an eye out!

With love, coherence, and waves of gratitude,

The Geometric Models Team

Message from Dan Winter:

As philosophy tells us - it is always 'the worst of times AND the best of times': this idea is closely linked to the principle, that it is compression that creates awareness.

If you are feeling 'squeezed' (is it implosive?), sometimes it is helpful to step back and 'breathe' .. into bigger pictures.. like physicsofsoul.com which is about death transcending (longitudinal) coherence.. always the wave that rides the longer wave.. of longer memories.

Tufan will be talking about this (and longer waves in DNA braided by bliss), in our new FractalU.com series starting this Sunday April 6

His course includes this geometry of braiding 'into the next dimension'.

We have an exciting lineup for this year's free FractalU.com courses, (every Sunday, 2pm NY time) and this excitement is amplified as we are just ready to announce our 5th International Sacred Geometry and Science of Consciousness, South France conference for this year! > www.fractalfield.com/2025
Check it out- Oct 9-14, S.France.

There was never so much fun in once place, as last year: And this year same amazing location (and same caterer).. those who were there

know.. this is kool. .. but NEW program: many surprises planned. Come and play with the NEW www.phiray.com - the stories are already becoming legend about.. plasma power at a whole new level,

AND finally our group is deep into planning meetings to create our actual permanent facility for the long term (like teaching bliss to kids!) COSMIC SCHOOL. Stay tuned.. AND speaking of teaching bliss practice to young people (one of our central dream intentions) .. wait til you hear Gayle - teaching her course on exactly that (and her days in India) .. at this year's FractalU.com. Thank you for playing with us.. amid all the drama - we can still have fun together. I think it was Frodo who said something like,

"It is BECAUSE you know THE FATE OF THE UNIVERSE ABSOLUTELY DEPENDS - ON YOUR NEXT MOVE, that it is precisely THAT knowledge is what convinces you"

The best thing to do now, is relax and get playful!

Blissings,

Dan Winter
